

MEDERI CENTRE FOR NATURAL HEALING

Practitioner Application and Dispensary Policy

February 1, 2017

The Mederi Dispensary is a full-service, compounding botanical dispensary that carries a broad array of more than 270 herbal tinctures, 90 bulk dry herbs, 50 bulk essential oils, 110 Chinese granule herbs, 12 standardized extracted herb powders, and 38 English flower essences. We offer an extensive formulary of (custom) herbal tonics, powders, topicals and teas formulated by Clinical Master Herbalist Donnie R. Yance, and compounded by our certified herbalist. We also stock more than 290 prepackaged supplements.

Requirements for Qualified Healthcare Practitioner (QHP) Status

Mederi Centre for Natural Healing (MCNH) & Clinic Dispensary offers a broad array of custom medicinal herbal formulas, herbal compounding services and a variety of prepackaged supplement products. Our products and services are offered only to individuals identified as Qualified Healthcare Practitioners (QHP). QHPs are asked to provide a copy of their practitioner's state license, professional degree, certificate or diploma to MCNH, along with this completed application. Satisfactory credentials for healthcare are generally limited to ND, LAc, MD, DO, DC, PA, DVM, Registered Dietician (RD), Nurse Practitioner (NP), Certified Clinical Nutritionist (CCN), M.S./TCM, and Certified Herbalists. Other credentials not listed may also qualify. A QHP meeting these qualifications who is directly providing health counseling services to individuals hereafter referred to as "patients", and who abide by the conditions detailed below, will be considered a QHP.

1. Practitioner Responsibilities:

Initial

While MCNH provides finished herbal products, it is the responsibility of the practitioner to know about, understand, and, as necessary, explain to the patient (a) the details of the individual ingredients, i.e., nature, function, indications, contraindications, etc.; (b) the dosage of the formula(s) administered; (c) duration of therapy; and (d) any cautions. Such knowledge comes from the practitioner's professional training, supplemented by readings from books and journals, clinical experience, and attendance at continuing education seminars. MCNH provides as much information as possible to augment what is presented in those other formats. Only limited details are provided about the products because they are intended for use within the context of the practitioner's basic training.

2. Ordering Dispensary Products

Initial

Only QHPs and their patients may order from our dispensary. Before any QHP may place an order, they must first apply for a practitioner account and be approved as a QHP by our staff (Practitioner Application on page 3).

A QHP may submit written dispensary orders using our MCNH order forms. These order forms act as written recommendations for your patients, and must be completed, signed and submitted to us before orders are fulfilled. Please refer to the Practitioner's Info Packet for order forms and support material. Written orders may be placed by fax, email or website. All orders can be picked up or shipped (shipping charges apply).

Compounded and dispensed items from our dispensary include custom formulas, stock formulas (tonics, teas, topicals, and powders), and single bulk herbal tinctures, teas, and powders.

PLEASE INITIAL ITEMS 1 & 2 AND RETURN WITH APPLICATION

Mederi Centre for Natural Healing • 180 Clear Creek Drive, Ste. 101 • Ashland, OR 97520
Dispensary Tel: 541.488.3133 • Fax: 541.488.6949 • MederiFoundation.org

3. Direct QHP Ordering & QHP Discount

Initial A QHP may place a written order of any dispensary product for their use or for their patient's use. A QHP will receive a 10% discount on each product, excluding special orders and shipping/handling. QHPs that pay for dispensary orders may request the product be drop-shipped directly to the patient at no additional charge.

4. Direct Patient Ordering Option

Initial A QHP may permit a patient to order and pay for dispensary products directly from MCNH. No patient orders will be fulfilled until the authorizing QHP has provided the dispensary with a written MCNH product authorization form for the patient. Patients who order directly from us must have an account profile set up, and all dispensary orders will be housed under their account profile. Direct patient orders will not be fulfilled until placed by the patient via phone, fax, email or website. All orders can be picked up or shipped (shipping charges apply). Patients who order directly from us, under their own account, may not receive a 10% practitioner discount on any product items.

Please Note: Practitioner and patient orders of dispensed products (including all formulas and single bulk herbs, tonics, teas, topicals, powders, Chinese Granules, and flower essences) are nonreturnable and nonrefundable.

5. Non-Patients

Initial We appreciate all referrals to our dispensary. However, only QHPs and patients known to MCNH may order from our dispensary. Should a referred person wish to know how they might purchase a dispensary product, MCNH staff will assist them.

6. Restricted Distribution

Initial QHPs may sell MCNH formulated products only to individual patients under the QHP's care. A QHP, or any agent representing a QHP, may not re-sell, repackage, re-label or redistribute any formulated and dispensed product to the general public. Formulated and dispensed products are considered any bulk ingredient, either single or multiple parts, that are custom measured, mixed, prepared, bottled and labeled by our dispensary staff.

7. Internet Sales Restrictions

Initial Internet sales of formulated and dispensed products are restricted from purchase by the general public. A QHP may not offer to sell, or claim or suggest that it will sell, any MCNH dispensary products in any website, in any social media, or in any Internet advertising, including banner advertising, pop-up advertising and sponsored searches (e.g., Google AdWords, Yahoo!, Search Marketing, Social Media Ads, and Bing Search Marketing).

8. Online Orders

Initial MCNH does not market nor sell its supplements and dispensary formulas to the general public. Our website does not offer an online store to the general public, although we offer online ordering capabilities to approved QHPs and their patients. Please contact Mederi to apply for website login permissions.

9. Retail Sales of Prepackaged Supplements

Initial Our dispensary stocks more than 290 different prepackaged supplements. These supplements are for professional use only, and may be purchased by QHPs or QHPs' patients with a written recommendation.
